

## QUICK START GUIDE USING GOOGLE HOME TO CONTROL YOUR BLAUPUNKT **XBOOST ROBOT VACUUM**

### **1** What you need to get started?

Before using Echo to control your smart devices, make sure you meet the following conditions.

- ✓ A Google Home device, or Android phone with Google Assistant.
- ✓ Latest Google Home app
- ✓ A Google account
- ✓ The device display language must be set to English US.
- ✓ BlueBot app
- ✓ XBOOST Robot Vacuum Cleaner

### **2** Add the robot vacuum cleaner in the BlueBot app.

(Refer to App Instruction)

You can skip this part if you've already connected your vacuum to the BlueBot application and it is named with an easily recognisable name such as „robot“.

#### 2.1 Download BlueBot app (Refer to App Instruction)

Scan the QR code below to download the BlueBot application to your phone:.

You can also search „BlueBot“ in either Apple App Store or Google Play to locate and install the app.

#### 2.2 Register a BlueBot or Smart life account and sign in the app (refer to app instructions)

1. Open the BlueBot app | 2. Tap „Register“ to register an account | 3. Sign in the app.

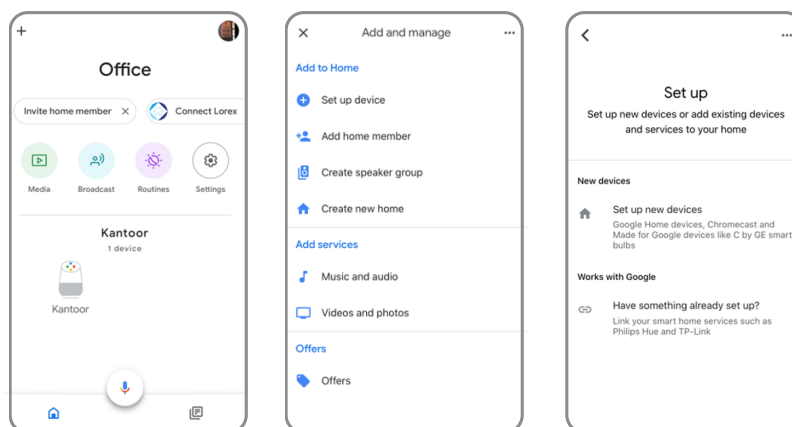

#### 2.3 Add device and change device's name

1. Follow the instructions to add the robot to the BlueBot App.
2. Change the Robot's name to an easily recognizable word, like „Robot“.

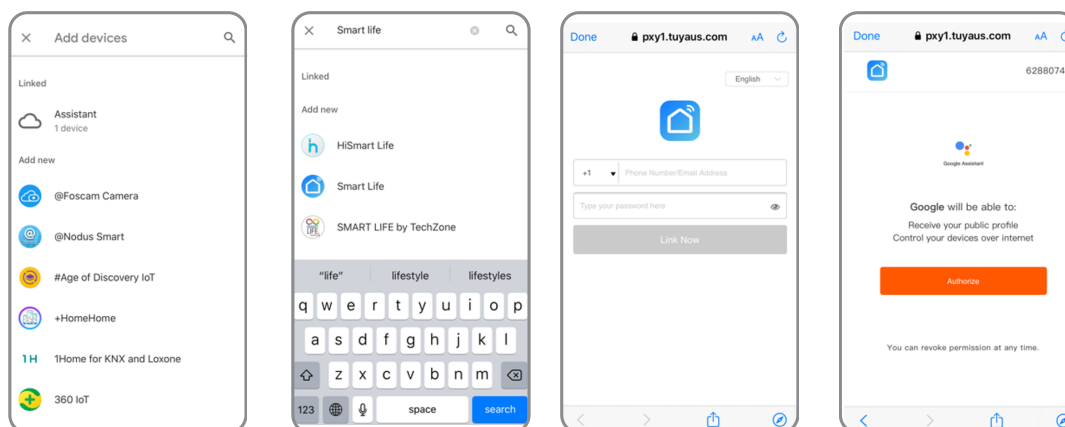

## QUICK START GUIDE USING GOOGLE HOME TO CONTROL YOUR BLAUPUNKT XBOOST ROBOT VACUUM

### 3 Add the robot vacuum cleaner in Google Home app

1. Open the Google Home App. | 2. Tap on the "+" icon. | 3. Tap on "Set up device".
